PUBLIC User's Guide WORD

In order to assist both the legal profession and the layman in obtaining the maximum benefit from the Mississippi Code of 1972 Annotated, a User's Guide has been included in the main volume. This guide contains comments and information on the many features found within the Code intended to increase the usefulness of the Code to the user.

Annotations

Case annotations are included based on decisions of the State and federal courts in cases arising in Mississippi. Annotations to collateral research references are also included.

To better serve our customers by making our annotations more current, LexisNexis has changed the sources that are read to create annotations for this publication. Rather than waiting for cases to appear in printed reporters, we now read court decisions as they are released by the courts. A consequence of this more current reading of cases, as they are posted online on LexisNexis, is that the most recent cases annotated may not yet have print reporter citations. These will be provided, as they become available, through later publications.

This publication contains annotations taken from decisions of the Mississippi Supreme Court and the Court of Appeals and decisions of the appropriate federal courts. These cases will be printed in the following reporters:

- Southern Reporter, 3rd Series
- United States Supreme Court Reports
- Supreme Court Reporter
- United States Supreme Court Reports, Lawyers' Edition, 2nd Series
- Federal Reporter, 4th Series
- Federal Supplement, 3rd Series
- Federal Rules Decisions
- Bankruptcy Reporter

Additionally, annotations have been taken from the following sources:

- American Law Reports, 6th Series
- American Law Reports, Federal 2nd
- Mississippi College Law Review
- Mississippi Law Journal

Finally, published opinions of the Attorney General and opinions of the Ethics Commission have been examined for annotations.

Amendment Notes

Amendment notes detail how the new legislation affects existing sections.

Editor's Notes

Editor's notes summarize subject matter and legislative history of repealed sections, provide information as to portions of legislative acts that have not been codified, or explain other pertinent information.

The sole right of planting, cultivating in racks or other structures, and gathering oysters and erecting bathhouses and other structures in front of any land bordering on the Gulf of Mexico or Mississippi Sound or waters tributary thereto belongs to the riparian owner and extends not more than seven hundred fifty (750) yards from the shore, except for state-owned lands on Deer Island, which shall be not more than four hundred (400) yards from shore, measuring from the average low water mark, but where the distance from shore to shore is less than fifteen hundred (1500) yards, the owners of either shore may plant and gather to a line equidistant between the two (2) shores, but no person shall plant in any natural channel so as to interfere with navigation, and such riparian rights shall not include any reef or natural oyster bed and does not extend beyond any channel. A riparian owner shall comply with the Coastal Wetlands Protection Act in exercising the use of these riparian rights. Stakes of such frail materials as will not injure any watercraft may be set up to designate the bounds of the plantation, but navigation shall not be impeded thereby. The riparian owner shall clearly mark such cultivation racks and other structures. The commission may adopt regulations to require that the racks are adequately marked to ensure the safety of users of public waters. Any oysters planted by such riparian owner are the private property of such riparian owner, subject to the right of the commission to adopt reasonable rules and regulations as to the planting and gathering of such oysters. All bathhouses, piers, wharfs, docks and pavilions, or other structures owned by riparian owner are likewise the private property of such owner, who shall be entitled to the exclusive use, occupancy and possession thereof, and may abate any private or public nuisance committed by any person or persons in the area of his riparian ownership and may, for such purposes, resort to any remedial action authorized by law. The governing authorities of any municipality and the board of supervisors of any county are authorized to adopt reasonable rules and regulations to protect riparian owners in the enjoyment of their riparian rights, and for such purposes may regulate the use of beaches, landings, and riparian areas abutting or fronting on roads, streets or highways.

JUDICIAL DECISIONS

1. Littoral rights.

Because riparian and littoral rights were not “real estate” but revocable licenses, a property owner could not gain standing for an action of inverse condem-

nation from an allegation of their infringement. *Russell Real Prop. Servs., LLC v. State*, 200 So. 3d 426, 2016 Miss. LEXIS 384 (Miss. 2016).

The reserve shall meet at least once each month for the purpose of training and transacting any business as may come before it. The executive director shall be notified in writing of all meetings of the reserve and the time and place of the meetings shall be recorded with the executive director. By October 1 of each year, the department shall provide the Conservation and Water Resources Committee of the Mississippi House of Representatives and the Ports and Marine Resources Committee of the Mississippi Senate a listing which contains each name and the respective cost of training each reserve officer received during the previous year.

§ 49-15-30. Commission may promulgate regulations for non-resident permits, reciprocity; penalties.

(1) The commission may promulgate rules and regulations for nonresident permits in order to promote reciprocal agreements with other states.

(2) The commission shall provide that residents of other states bordering on the Gulf of Mexico who are applicants for a commercial fishing license of any type as provided for in this chapter shall pay the same fee or fees that a resident of this state pays in this state for that license if the respective applicant’s domicile state does not charge a greater fee or fees for a Mississippi resident than for a resident of any other state to engage in a like activity in the other state. If the applicant’s domicile state does charge a greater fee or fees for residents of Mississippi than for a resident of the applicant’s domicile state, then that applicant shall pay the same fee or fees that the applicant’s domicile state charges residents of Mississippi.

(3) The commission shall require a nonresident to purchase the same type and number of licenses and pay the same fees that are required of Mississippi residents to engage in like activity in the nonresident’s state.

(4)(a) If an applicant applies for a nonresident commercial fishing license to engage in a certain activity and the applicant’s state does not issue a nonresident commercial fishing license for that activity, then the commission shall not issue such license to the applicant.

(b) If the applicant’s domicile state has additional mandatory licensing requirements, the applicant must meet those requirements before receiving a nonresident commercial fishing license.

(5) Any nonresident who engages in the commercial taking of seafood within the territorial waters of Mississippi without having the required nonresident commercial license is guilty of a misdemeanor and shall be fined Five Thousand Dollars (\$5,000.00) and shall forfeit any equipment, gear or nets used in the offense.

§ 49-15-36. Oyster reefs and bottoms; rotating opening; closing of oyster reefs; special permits for taking oysters during closed season; depuration.

(1) The commission shall have full jurisdiction and control of all public and natural oyster reefs and oyster bottoms of the State of Mississippi. The commission may delegate this authority to the executive director of the department.

(2) Public reefs may be opened for harvest of oysters during the season on a rotating basis. If the commission determines that a particular reef has been over-harvested or that a high percentage of sublegal size oysters exist on a particular reef and that harvest could damage future oyster crops, the commission may close designated reef areas and keep them closed during the season.

(3) The commission shall promulgate regulations regarding the closing of oyster reefs to protect the public health. When that testing indicates the oysters on the closed reef are suitable for consumption, the reef shall be opened for the taking of oysters as soon as notice of that opening may be made to interested parties. The authority to open or close oyster reefs under this chapter shall be solely within the discretion of the commission, acting through the department. The Gulf Coast Research Laboratory or other certified laboratory shall cooperate with the department and shall conduct necessary tests to determine the condition of oyster reefs at the request of the department. The department may limit the sale of oysters for human consumption, but all matters concerning the harvesting of oysters shall be within the jurisdiction of the commission.

(4)(a) The commission may issue special permits for the purpose of catching oysters outside the open season or in areas not normally open to harvest to those nonprofit organizations that are tax exempt under Section 501(c) of the United States Internal Revenue Code and which have on file with the Department of Revenue a tax exemption letter issued by the United States Internal Revenue Service.

(b) The commission shall promulgate rules and regulations governing the taking of oysters by the nonprofit organization and shall issue such regulations to all organizations upon request and at the issuance of the special permit.

(5) The commission shall establish a reasonable period of time for depuration of oysters replanted from restricted waters. That period of time shall be consistent with the maintenance of the public health and may vary from time to time and from one reef to another in accordance with environmental conditions.

five (5) and ten (10) days after closure”; and substituted “Department of Revenue” for “State Tax Commission” in (4)(a).

§ 49-15-40. Projects to create or establish new oyster beds; molluscan depuration facilities; lease of water bottoms to political subdivisions.

(1) The commission may support projects in the nature of digging or constructing canals or ditches to bring additional water to existing oyster reefs or beds in need of that water, or for the purpose of creating or establishing new oyster reefs or beds. All reefs created or established under this section shall be public reefs. The commission may expend any monies as it deems necessary and expedient to participate in the digging of those canals. The commission may also enter into interstate or intrastate efforts to support these projects and may seek and utilize aid from all federal, state and local sources in this endeavor. To aid in the construction of any canals or ditches, the commission may exercise the right of eminent domain in the manner provided by law.

(2) The commission may construct, operate and maintain onshore, molluscan facilities using any federal or special funds, other than general funds, for the purpose of testing and proving technology relating to oysters and other shellfish. In connection with the construction, operation and maintenance of the facilities, the commission may contract with any persons it deems necessary for the operation, testing, maintenance and evaluation of the facilities, subject to the approval of the State Personnel Board. The commission may locate the facilities on any available public properties, subject to the approval of the governing body of that jurisdiction and all other applicable state laws. Once the technology has been tested and proven, the commission may conduct any other tests and experiments with oysters or other shellfish as may be necessary to enhance production or quality of shellfish.

(3) The commission may lease to political subdivisions of the State of Mississippi up to one thousand (1,000) acres of water bottoms for development of oyster reefs and those political subdivisions may permit residents of the State of Mississippi to harvest oysters from the reefs. The political subdivision may charge and receive a fee for each sack of oysters harvested. The commission shall consider and approve the application of a political subdivision after determining that (a) no conflicts exist with sites requested in applications filed before the application of the political subdivision; (b) a fair and reasonable rental payment has been set; and (c) the lease will insure the maximum culture and propagation of oysters.

The executive director shall send a copy of the imposed fine to the alleged violator.

If, in the judgment of the executive director, or his designee, a reasonable settlement is reached, the recommended penalty shall be revised accordingly. The executive director shall make the final decision regarding the penalty to be issued, which may include dismissal of the complaint, issuance of a warning in lieu of a penalty or a monetary penalty not to exceed Ten Thousand Dollars (\$10,000.00) for each violation. If a request for information settlement is not received within the timeframe provided, the executive director's imposed fine will be the final decision.

(1) "Title V program" means, as used in Sections 49-17-1 through 49-17-45, the air operating permit program mandated in Title V of the 1990 amendments to the federal Clean Air Act, codified in 42 USCS Section 7661, et seq.

(2) There is created in the State Treasury a fund to be designated as the "Air Operating Permit Program Fee Trust Fund," referred to hereinafter as the "fund."

(3) The fund shall be treated as a special trust fund. Interest earned on the principal therein shall be credited by the Treasurer to the fund.

(4) The fund may receive monies from any available public or private source including, but not limited to, collection of fees, interest, grants, taxes, public and private donations and judicial actions.

(5) To facilitate the proper administration of the fund, the commission is authorized to promulgate rules and regulations for the administration of the fund.

(6) The commission shall expend or utilize monies in the fund by an annual appropriation approved by the Legislature to pay all reasonable direct and indirect costs associated with the development and administration of the Title V program including, but not limited to, the reasonable costs of the following activities as they relate to the Title V program:

(a) Preparing generally applicable regulations or guidance regarding the permit program or its implementation or enforcement;

(b) Reviewing and acting on any application for a permit, permit modification or permit renewal, including the development of an applicable requirement as part of the processing of a permit, or permit modification or renewal;

(c) Administering the permit program, including the supporting and tracking of permit applications, compliance certification, and related data entry;

(d) Implementing and enforcing the terms of any Title V permit (not including any court costs or other costs associated with an enforcement action), including adequate resources to determine which sources are subject to the program;

(e) Emissions and ambient monitoring;

(f) Modeling, analyses, or demonstrations;

(g) Preparing inventories and tracking emissions;

(h) Providing direct and indirect support to sources under the Small Business Stationary Source Technical and Environmental Compliance Assistance Program under Section 507 of the federal Clean Air Act in determining and meeting their obligations under this section; and

(i) Providing funding to the Advisory Council created in Section 49-17-16 in an amount reasonably sufficient to meet the Advisory Council's obligations under Sections 49-17-1 through 49-17-45.

(7) Monies in the fund at the end of the fiscal year shall be retained in the fund for use in the next succeeding fiscal year. If the fund balance at the end of the fiscal year exceeds thirty-three percent (33%) of the projected annual costs of administering the program, the assessment rates may be adjusted to reduce the future projected fund balance. If necessary, the assessment rates shall be adjusted during the setting of the next fee schedule.

(8) At no time shall a fee be assessed that results in a projected ending fund balance of more than the current annual cost of administering the Title V program.

(9) No such fees shall be utilized by the Department of Environmental Quality or any other person for any purpose or purposes other than those purposes required by Sections 49-17-1 through 49-17-45, as they relate to the Title V program.

HISTORY: Laws, 1993, ch. 611, § 1, eff from and after passage (approved April 16, 1993); Laws, 2020, ch. 352, § 1, eff from and after July 1, 2020.

Amendment Notes — The 2020 amendment in (7), deleted the former last two sentences, which read: "If the annual fees collected exceed the cost of administering the Title V program for that fiscal year, then the excess shall be applied to the cost of administering the program for the succeeding fiscal year. In the succeeding fiscal year, the total to be collected from fees shall be reduced by the excess retained in the fund and the assessment rates shall be adjusted proportionately," and added the present last two sentences; added (8); and redesignated former (8) as (9), and therein added "as they relate to the Title V program."

§ 49-17-16. Advisory Council.

(1)(a) An Advisory Council, hereinafter referred to as "Advisory Council," is created to conduct an independent study of the costs for the development and administration of the Title V program within the Department of Environmental Quality and to conduct an annual review of the costs of administering such programs.

(b) The costs to be included within the study for the Title V program shall be those costs set forth in Section 49-17-14. After completing a study of

the program needs and costs, the Advisory Council shall recommend an equitable fee system for the Title V program. The annual review of the Title V program shall determine if the fee system is collecting sufficient funds to meet the program needs. The Advisory Council shall recommend an appropriate fee schedule for the upcoming fee year and, if necessary, recommend changes to the existing fee system so that sufficient funds are collected through an equitable fee system. Each annual review report shall be due January 1 of each year to the commission and the Executive Director of the Department of Environmental Quality.

(2) The Department of Environmental Quality shall assist the Advisory Council by providing any information the Advisory Council may require to perform its duties under Sections 49-17-1 through 49-17-45.

(3) The Advisory Council shall be composed of the following seven (7) persons appointed as follows: three (3) representatives of industries that qualify for inclusion under the Title V program, that are required to pay the program fee, with one (1) such representative to be appointed by the Governor, one (1) by the Lieutenant Governor and one (1) by the Speaker of the House of Representatives; the Executive Director of the Mississippi Development Authority; the President of the Mississippi Manufacturers Association; the President of the Mississippi Farm Bureau Federation; and the Chairman of the Mississippi Small Business Compliance Advisory Panel. Nonappointed members of the Advisory Council may designate an alternate member to act in their stead in performing any function of the Advisory Council. The length of term for each member of the Advisory Council shall be four (4) years. Members of the Advisory Council may serve successive and multiple terms.

(4) Vacancies on the Advisory Council shall be filled by appointment in the same manner as the original appointments.

(5) The Advisory Council shall select from their membership a chairperson to preside over meetings and a vice chairperson to preside in the absence of the chairperson or when the chairperson shall be excused. The Advisory Council shall adopt procedures governing the manner of conducting its business. A majority of the members shall constitute a quorum to do business.

(6) Members of the Advisory Council shall serve without salary. The members of the Advisory Council shall be entitled to receive reimbursement of their actual travel and hotel expenses as provided in Section 25-3-41, incurred while in the performance of their duties as members of the Advisory Council to be paid on an itemized statement approved by the State Fiscal Officer. Expenses shall be paid from fees collected in accordance with Section 49-17-30.

(7) The Executive Director of the Department of Environmental Quality shall provide technical, clerical and other support services, including services by contract, as the Advisory Council determines that it requires in the performance of its functions.

HISTORY: Laws, 1993, ch. 611, § 2, eff from and after passage (approved April 16, 1993); Laws, 2020, ch. 352, § 2, eff from and after July 1, 2020.

Amendment Notes — The 2020 amendment rewrote (1)(b), and (2) through (4).

§ 49-17-28. Permit board; membership; compensation.**JUDICIAL DECISIONS****1. In general.**

Substantial evidence supported the Mississippi Environmental Quality Permit Board's (Permit Board) granting of a siting variance and permit to expand a poultry farm, over a neighbor's objections, because the Permit Board permissibly considered (1) that the neighbor rebuilt the neighbor's home within 600 feet of an approved facility, and (2) the neighbor's motives for contesting the variance and permit. *Taylor v. Miss. Env'tl. Quality Permit Bd.*, 205 So. 3d 1129, 2016 Miss. App. LEXIS 164 (Miss. Ct. App.), cert. denied, 205 So. 3d 1082, 2016 Miss. LEXIS 529 (Miss. 2016).

Poultry farm owner's failure to give a neighbor 180 days' notice of intended construction, and the owner's illegal operation of a poultry farm without a permit and within a buffer zone, did not bar the Mississippi Environmental Quality Permit Board (Permit Board) from granting the owner a variance from siting criteria and a permit because the Permit Board (1) considered the owner's noncompliance and (2) had the authority to grant the variance and permit nonetheless. *Taylor v. Miss. Env'tl. Quality Permit Bd.*, 205 So. 3d 1129, 2016 Miss. App. LEXIS 164 (Miss. Ct. App.), cert. denied, 205 So. 3d 1082, 2016 Miss. LEXIS 529 (Miss. 2016).

§ 49-17-29. Permit Board; prohibitions; air and water permits; solid waste and hazardous permits; permit hearings; permit appeals.

(1)(a) Except as in compliance with paragraph (b) of this subsection, it is unlawful for any person to cause pollution of the air in the state or to place or cause to be placed any wastes or other products or substances in a location where they are likely to cause pollution of the air. It is also unlawful to discharge any wastes, products or substances into the air of the state which exceed standards of performance, hazardous air pollutant standards, other emission standards set by the commission, or which reduce the quality of the air below the air quality standards or increments established by the commission or prevent attainment or maintenance of those air quality standards. Any such action is hereby declared to be a public nuisance.

(b) It is unlawful for any person to build, erect, alter, replace, use or operate any equipment which will cause the issuance of air contaminants unless that person holds a permit from the Permit Board (except repairs or maintenance of equipment for which a permit has been previously issued), or unless that person is exempted from holding a permit by a regulation promulgated by the commission. Concentrated animal feeding operations may be a source or a category of sources exempted under this paragraph. However, no new or existing applications relating to swine concentrated animal feeding operations within a county shall be exempted from regulations and ordinances which have been duly passed by the county's board of supervisors and which are in force on June 1, 1998.

(2)(a) Except as in compliance with paragraph (b) of this subsection, it is unlawful for any person to cause pollution of any waters of the state or to place or cause to be placed any wastes in a location where they are likely to

cause pollution of any waters of the state. It is also unlawful to discharge any wastes into any waters of the state which reduce the quality of those waters below the water quality standards established by the commission; or to violate any applicable pretreatment standards or limitations, technology-based effluent limitations, toxic standards or any other limitations established by the commission. Any such action is declared to be a public nuisance.

(b) It is unlawful for any person to carry on any of the following activities, unless that person holds a current permit for that activity from the Permit Board as may be required for the disposal of all wastes which are or may be discharged into the waters of the state, or unless that person is exempted from holding a permit by a regulation promulgated by the commission: (i) the construction, installation, modification or operation of any disposal system or part thereof or any extension or addition thereto, including, but not limited to, systems serving agricultural operations; (ii) the increase in volume or strength of any wastes in excess of the permissive discharges specified under any existing permit; (iii) the construction, installation or operation of any industrial, commercial or other establishment, including irrigation projects or any extension or modification thereof or addition thereto, the operation of which would cause an increase in the discharge of wastes into the waters of the state or would otherwise alter the physical, chemical or biological properties of any waters of the state in any manner not already lawfully authorized; (iv) the construction or use of any new outlet for the discharge of any wastes into the waters of the state. However, no new or existing applications relating to swine concentrated animal feeding operations within a county shall be exempted from regulations and ordinances which have been duly passed by the county's board of supervisors and which are in force on June 1, 1998.

(3)(a) Except as otherwise provided in this section, the Permit Board created by Section 49-17-28 shall be the exclusive administrative body to make decisions on permit issuance, reissuance, denial, modification or revocation of air pollution control and water pollution control permits and permits required under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17), and all other permits within the jurisdiction of the Permit Board. After consideration of alternative waste treatment technologies available to control air and water pollution and odor, including appropriate siting criteria, the commission may promulgate regulations establishing conditions, limitations and exemptions under which the Permit Board shall make these decisions. Regulations promulgated by the commission which establish exemptions as authorized under this section shall apply to any applicable facility in operation on the effective date of that regulation and to any applicable facility constructed or operated after the effective date of that regulation. The Permit Board may issue multiple permits for the same facility or operation simultaneously or in the sequence that it deems appropriate consistent with the commission's regulations. Except as otherwise provided in this paragraph, the Permit Board, under any conditions

that the board may prescribe, may authorize the Executive Director of the Department of Environmental Quality to make decisions, on permit issuance, reissuance, denial, modification or revocation. The executive director shall not be authorized to make decisions on permit issuance, reissuance, denial, modification or revocation for a commercial hazardous waste management facility or a solid waste management permit for a municipal solid waste landfill or incinerator. A decision by the executive director shall be a decision of the Permit Board and shall be subject to formal hearing and appeal as provided in this section. The executive director shall report all permit decisions to the Permit Board at its next regularly scheduled meeting and those decisions shall be recorded in the minutes of the Permit Board. The decisions of the Permit Board shall be recorded in minutes of the Permit Board and shall be kept separate and apart from the minutes of the commission. The decision of the Permit Board or the executive director to issue, reissue, deny, modify or revoke permits shall not be construed to be an order or other action of the commission.

(b) The Executive Director of the Department of Environmental Quality shall also be the Executive Director of the Permit Board and shall have available to him, as Executive Director of the Permit Board, all resources and personnel otherwise available to him as executive director of the department.

(c) All persons required to obtain an air pollution control or water pollution control permit, a permit under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17) or any other permit within the jurisdiction of the Permit Board shall make application for that permit with the Permit Board. The Permit Board, under any regulations as the commission may prescribe, may require the submission of those plans, specifications and other information as it deems necessary to carry out Sections 49-17-1 through 49-17-43 and Title 17, Chapter 17, or to carry out the commission's regulations adopted under those sections. The Permit Board, based upon any information as it deems relevant, shall issue, reissue, deny, modify or revoke air pollution control or water pollution control permit or permits required under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17) or any other permit within the jurisdiction of the Permit Board under any conditions as it deems necessary that are consistent with the commission's regulations. The Permit Board's action of issuance, reissuance, denial, modification or revocation of a permit as recorded in its minutes shall constitute a complete decision of the board. All permits issued by the Permit Board shall remain in full force and effect until the board makes a final determination regarding any reissuance, modification, or revocation thereof. The Permit Board shall take action upon an application within one hundred eighty (180) days following its receipt in the board's principal office. No action which affects revocation of an existing permit shall take effect until the thirty (30) days mentioned in paragraph (4)(b) of this section has expired or until a formal hearing as prescribed in that paragraph is held, whichever is later.

(d) The Permit Board may adopt rules of practice and procedure governing its proceedings that are consistent with the commission's regula-

tions. All hearings in connection with permits issued, reissued, denied, modified or revoked and all appeals from decisions of the Permit Board shall be as provided in this section.

(e) Upon any conditions that are consistent with the commission's regulations and subject to those procedures for public notice and hearings as provided by law, not inconsistent with federal law and regulations, the Permit Board may issue general permits and, where appropriate, may consolidate multiple permits for the same facility or operation into a single permit.

(f) The Permit Board shall not issue any permit for a new swine concentrated animal feeding operation or the expansion of an existing swine concentrated animal feeding operation before January 1, 2000, unless the department received the application for that operation's new or modified permit before February 28, 1998, or except as provided in this paragraph (f). In issuing or modifying any permit for which the department received an application before February 28, 1998, the Permit Board shall apply those siting criteria adopted or used by the commission before February 28, 1998, unless federal law or regulations require more stringent criteria. The moratorium established in this paragraph shall not apply to the issuance of any permit for a new swine concentrated animal feeding operation or the expansion of an existing swine concentrated animal feeding operation that uses an animal waste management system which the applicant demonstrates to the Permit Board is innovative in significantly reducing the effects of the operation on the public health, welfare or the environment and which is approved by the Permit Board. The Permit Board shall not issue or modify more than five (5) permits under this innovative animal waste management system technology exemption to the moratorium.

(g) Each applicant for a permit for a new outlet for the discharge of wastes into the waters of the state who is required to obtain a certificate of public convenience and necessity from the Public Service Commission for such wastewater system shall submit financial and managerial information as required by the Public Utilities Staff. Following review of that information, the Executive Director of the Public Utilities Staff shall certify in writing to the executive director of the department, the financial and managerial viability of the system if the Executive Director of the Public Utilities Staff determines the system is viable. The Permit Board shall not issue the permit until the certification is received.

(4)(a) Except as required by this section, before the issuance, reissuance, denial, modification or revocation of any air pollution control or water pollution control permit, permit required under the Solid Wastes Disposal Law of 1974 (Title 17, Chapter 17) or any other permit within its jurisdiction, the Permit Board, in its discretion, may hold a public hearing or meeting to obtain comments from the public on its proposed action. Before the issuance, reissuance, denial, modification pertaining to the expansion of a facility, transfer or revocation of a permit for a commercial hazardous waste management facility or a solid waste management permit for a commercial

municipal solid waste landfill or incinerator, the Permit Board shall conduct a public hearing or meeting to obtain comments from the public on the proposed action. That hearing or meeting shall be informal in nature and conducted under those procedures as the Permit Board may deem appropriate consistent with the commission's regulations.

(b) Within thirty (30) days after the date the Permit Board takes action upon permit issuance, reissuance, denial, modification or revocation, as recorded in the minutes of the Permit Board, any interested party aggrieved by that action may file a written request for a formal hearing before the Permit Board. An interested party is any person claiming an interest relating to the property or project which is the subject of the permit action, and who is so situated that the person may be affected by the disposition of that action.

The Permit Board shall fix the time and place of the formal hearing and shall notify the permittee of that time and place.

In conducting the formal hearing, the Permit Board shall have the same full powers as to subpoenaing witnesses, administering oaths, examining witnesses under oath and conducting the hearing, as is now vested by law in the Mississippi Public Service Commission, as to the hearings before it, with the additional power that the Executive Director of the Permit Board may issue all subpoenas at the instance of the Permit Board or at the instance of any interested party. Any subpoenas shall be served by any lawful officer in any county to whom the subpoena is directed and return made thereon as provided by law, with the cost of service being paid by the party on whose behalf the subpoena was issued. Witnesses summoned to appear at the hearing shall be entitled to the same per diem and mileage as witnesses attending the circuit court and shall be paid by the person on whose behalf the witness was called. Sufficient sureties for the cost of service of the subpoena and witness fees shall be filed with the Executive Director of the Permit Board at the time that issuance of the subpoena is requested. At a hearing, any interested party may present witnesses and submit evidence and cross-examine witnesses.

The Permit Board may designate a hearing officer to conduct the formal hearing on all or any part of the issues on behalf of the Permit Board. The hearing officer shall prepare the record of the formal hearing conducted by that officer for the Permit Board and shall submit the record to the Permit Board.

Upon conclusion of the formal hearing, the Permit Board shall enter in its minutes the board's decision affirming, modifying or reversing its prior decision to issue, reissue, deny, modify or revoke a permit. The Permit Board shall prepare and record in its minutes findings of fact and conclusions of law supporting its decision. That decision, as recorded in its minutes with its findings of fact and conclusions of law, shall be final unless an appeal, as provided in this section, is taken to chancery court within twenty (20) days following the date the decision is entered in the board's minutes.

(c) Within twenty (20) days after the date the Permit Board takes action upon permit issuance, reissuance, denial, modification or revocation after a

formal hearing under this subsection as recorded in the minutes of the Permit Board, any person aggrieved of that action may appeal the action as provided in subsection (5) of this section.

(5)(a) Appeals from any decision or action of the Permit Board shall be only to chancery court as provided in this subsection.

(b) Any person who is aggrieved by any decision of the Permit Board issuing, reissuing, denying, revoking or modifying a permit after a formal hearing may appeal that decision within the period specified in subsection (4)(c) of this section to the chancery court of the county of the situs in whole or in part of the subject matter. The appellant shall give a cost bond with sufficient sureties, payable to the state in the sum of not less than One Hundred Dollars (\$100.00) nor more than Five Hundred Dollars (\$500.00), to be fixed by the Permit Board and to be filed with and approved by the Executive Director of the Permit Board, who shall forthwith certify the filing of the bond together with a certified copy of the record of the Permit Board in the matter to the chancery court to which the appeal is taken, which shall thereupon become the record of the cause. An appeal to the chancery court as provided in this section shall not stay the decision of the Permit Board. The aggrieved party may, within twenty (20) days following the date the board's decision after a formal hearing is entered on the board's minutes, petition the chancery court for an appeal with supersedeas and the chancellor shall grant a hearing on that petition. Upon good cause shown, the chancellor may grant that appeal with supersedeas. If granted, the appellant shall be required to post a bond with sufficient sureties according to law in an amount to be determined by the chancellor. Appeals shall be considered only upon the record as made before the Permit Board. The chancery court shall always be deemed open for hearing of an appeal and the chancellor may hear the same in termtime or in vacation at any place in the chancellor's district, and the appeal shall have precedence over all civil cases, except election contests. The chancery court shall review all questions of law and of fact. If no prejudicial error is found, the matter shall be affirmed. If prejudicial error is found the decision of the board shall be reversed and the chancery court shall remand the matter to the Permit Board for appropriate action as may be indicated or necessary under the circumstances. Appeals may be taken from the chancery court to the Supreme Court in the manner as now required by law, except that if a supersedeas is desired by the party appealing to the chancery court, that party may apply for a supersedeas to the chancellor of that court, who shall award a writ of supersedeas, without additional bond, if in the chancellor's judgment material damage is not likely to result thereby; but otherwise, the chancellor shall require a supersedeas bond as the chancellor deems proper, which shall be liable to the state for any damage.

JUDICIAL DECISIONS

ANALYSIS

1. In general.
3. Appeals.

1. In general.

Penalty assessed against a contractor was well within the authority of the Mississippi Commission on Environmental Quality and was supported by substantial evidence of willfulness because the Mississippi Department of Environmental Quality showed that the contractor had continued his construction activities even though he had been warned he was in violation of the Mississippi Air and Water Pollution Control Law. *Gray v. Miss. Comm’n on Env’tl. Quality*, 174 So. 3d 956, 2015 Miss. App. LEXIS 478 (Miss. Ct. App. 2015).

Substantial evidence supported the finding of the Mississippi Commission on Environmental Quality that a contractor violated subsection (2) because the Mississippi Department of Environmental Quality saw him violate the statute on five separate occasions; by regulation, to avoid violating the statute, the contractor had to obtain a storm-water permit, something he undeniably did not do, and thus, his unpermitted land-disturbing construction activities were a clear violation. *Gray v. Miss. Comm’n on Env’tl. Quality*, 174 So.

3d 956, 2015 Miss. App. LEXIS 478 (Miss. Ct. App. 2015).

3. Appeals.

Circuit court did not err in upholding the decision of the Mississippi Department of Environmental Quality Permit Board, which denied as untimely a competitor’s request for a formal hearing on a permit issued to a limited liability company (LLC), because the Permit Board’s interpretation of subsection (4)(b) was reasonable; there was no relief for the competitor’s inaction because subsection (4)(b) provided finality to allow the permitting process to continue. *Globe Metallurgical, Inc. v. Miss. Env’tl. Quality Permit Bd.*, 192 So. 3d 1084, 2016 Miss. App. LEXIS 318 (Miss. Ct. App. 2016).

Mississippi Department of Environmental Quality Permit Board did not err in granting groundwater withdrawal permits to a county utility authority because the factors it considered were reasonable, it made specific findings as to each factor, and its findings were supported by substantial evidence; the utility authority owned the land upon which it would install wells for the groundwater withdrawal and planned to use the water for public water supply, the highest-ranked beneficial use of water. *Riverbend Utils., Inc. v. Miss. Env’tl. Quality Permit Bd.*, 130 So. 3d 1096, 2014 Miss. LEXIS 69 (Miss. 2014).

§ 49-17-30. Title V permit fees.

(1) As a condition of Title V of the federal Clean Air Act, the owner or operator of any stationary source required to obtain an air operating permit under the Title V program, hereinafter referred to as a “Title V permit,” shall pay to the Department of Environmental Quality an annual fee.

(2) To facilitate the proper administration of the Title V program, the commission is authorized to assess and collect fees from any stationary source subject to the Title V program. The commission shall establish the amount of each fee to cover the costs of the Title V program as provided in Section 49-17-14. The commission is further authorized to promulgate such rules and regulations as are necessary for the development and administration of the Title V program and the assessment and collection of the Title V program fees.

(3)(a) The fee schedule for Title V program fees shall be set annually by order of the commission in an amount sufficient to cover the reasonable costs of development and administration of the Title V program. The commission's order shall follow:

(i) Receipt of the report and recommendations of the Advisory Council, if timely received; and

(ii) A public hearing to be held not earlier than thirty (30) days following receipt by the commission of the report and recommendations of the Advisory Council.

(b) The commission may proceed with entry of the order on fees if the Advisory Council fails to submit its report in a timely manner.

(c) The order of the commission may be appealed in the manner set forth in Section 49-17-41.

(d) The determination of the fee set by order of the commission shall not be considered the promulgation of a regulation by the commission.

(e) The record of the public hearing shall be included in the record upon which the order is based and shall become a part of the appellate records for all appeals taken from the order of the commission establishing or modifying Title V program fees. Any undisputed amount due from an appellant must be paid according to the appellant's payment schedule during the pendency of the appeal.

(4) Any person required to pay the Title V program fee set forth under this chapter who disagrees with the calculation or applicability of the person's fee may petition the commission in writing for a hearing in accordance with Section 49-17-35. Such hearing shall be in accordance with Section 49-17-33. Any disputed portion of the fee for which a hearing has been requested will not incur any penalty or interest from and after the receipt by the commission of the hearing petition. The decision of the commission may be appealed in the manner set forth in Section 49-17-41.

(5) All fees collected pursuant to this section shall be deposited into the "Air Operating Permit Program Fee Trust Fund" established in Section 49-17-14.

HISTORY: Laws, 1993, ch. 611, § 3; Laws, 2012, ch. 321, § 1, eff from and after passage (approved Apr. 5, 2012); Laws, 2020, ch. 352, § 3, eff from and after July 1, 2020.

Amendment Notes — The 2020 amendment rewrote the section.

§ 49-17-32. Collection of fees.

(1) The commission may delegate to the Department of Environmental Quality the responsibility for the collection of the Title V program fees.

(2) The Title V program fee shall be due September 1 of each year. Each owner or operator may elect a quarterly payment method of four (4) equal payments with the payments due September 1, December 1, March 1 and June 1. The owner or operator shall notify the Department of Environmental Quality that the quarterly payment method will be used by September 1.

(3) If any part of the Title V program fee imposed is not paid within thirty (30) days after the due date, a penalty of ten percent (10%) of the amount due shall at once accrue and be added thereto, unless the permittee demonstrates to the commission that the failure to make timely payment was unavoidable due to financial hardship or otherwise beyond the permittee's control. If the fee is not paid in full, including any penalty within sixty (60) days of the due date, the Environmental Quality Permit Board may revoke the permit upon proper notice and hearing as required by law. Any penalty collected under this section shall be deposited into the "Air Operating Permit Program Fee Trust Fund."

(4) Any owner or operator that fails to properly identify themselves subject to the Title V program may be subject to fees and penalties as determined by the commission.

(5) It is the intent of the Legislature that fees collected pursuant to Sections 49-17-1 through 49-17-45 shall not supplant or reduce in any way the General Fund appropriation to the Department of Environmental Quality.

Amendment Notes — The 2020 amendment rewrote (2), which read: "The air operating permit fee shall be due September 1 of each year. Any facility which proposes to use actual emissions as the basis for the fee calculation shall submit by July 1 of each year an inventory of emissions for the previous calendar year. For facilities using actual emissions as the basis of the fee, the fee shall be calculated based upon emissions during the previous calendar year. For facilities using allowable emissions as the basis for the fee, the fee shall be calculated based upon the allowable emissions contained in the permit on the date of the invoice. A permit holder may elect a quarterly payment method of four (4) equal payments with the payments due September 1, December 1, March 1, and June 1. The permit holder shall notify the Department of Environmental Quality that the quarterly payment method will be used by September 1"; in (3), substituted "Title V program fee" for "air operating permit fee"; added (4); and redesignated former (4) as (5).

JUDICIAL DECISIONS

1. In general.

Penalty assessed against a contractor was well within the authority of the Mississippi Commission on Environmental Quality and was supported by substantial evidence of willfulness because the Mississippi Department of Environmental Quality showed that the contractor had

continued his construction activities even though he had been warned he was in violation of the Mississippi Air and Water Pollution Control Law. *Gray v. Miss. Comm'n on Env'tl. Quality*, 174 So. 3d 956, 2015 Miss. App. LEXIS 478 (Miss. Ct. App. 2015).

§ 49-17-85. Funds established; promulgation of regulations; uses of fund; administrative fees; renegotiation of certain loans.

(1) There is established in the State Treasury a fund to be known as the "Water Pollution Control Revolving Fund," which shall be administered by the commission acting through the department. The revolving fund may receive bond proceeds and funds appropriated or otherwise made available by the Legislature in any manner and funds from any other source, public or private. The revolving fund shall be maintained in perpetuity for the purposes established in this section.

(2) There is established in the State Treasury a fund to be known as the "Water Pollution Control Hardship Grants Fund," which shall be administered by the commission acting through the department. The grants fund shall be maintained in perpetuity for the purposes established in this section. Any interest earned on monies in the grants fund shall be credited to that fund.

(3) The commission shall promulgate regulations for the administration of the revolving fund program, the hardship grants program and for related programs authorized under this section. The regulations shall be in accordance with the federal Water Quality Act of 1987, as amended, and regulations and guidance issued under that act. The commission may enter into capitalization grant agreements with the United States Environmental Protection Agency and may accept capitalization grant awards made under Title VI of the Water Quality Act of 1987, as amended.

(4) The commission shall establish a loan program which shall commence after October 1, 1988, to assist political subdivisions in the construction of water pollution control projects. Loans from the revolving fund may be made to political subdivisions as set forth in a loan agreement in amounts not exceeding one hundred percent (100%) of eligible project costs as established by the commission. Notwithstanding loan amount limitations set forth in Section 49-17-61, the commission may require local participation or funding from other sources, or otherwise limit the percentage of costs covered by loans from the revolving fund. The commission may establish a maximum amount for any loan in order to provide for broad and equitable participation in the program.

(5) The commission shall establish a hardship grants program for rural communities, which shall commence after July 1, 1997, to assist severely economically disadvantaged small rural political subdivisions in the construction of water pollution control projects. The commission may receive and

administer state or federal funds, or both, appropriated for the operation of this grants program and may take all actions necessary to implement the program in accordance with the federal hardship grants program. The hardship grants program shall operate in conjunction with the revolving loan program administered under this section.

(6) The commission shall act for the state in all matters and with respect to all determinations under Title VI of the federal Water Quality Act of 1987, as amended, and the federal Omnibus Appropriations and Recision Act of 1996.

(7) Except as otherwise provided in this section, the revolving fund may be used only:

(a) To make loans on the condition that:

(i) The loans are made at or below market interest rates, at terms not to exceed the maximum time allowed by federal law after project completion; the interest rate and term may vary from time to time and from loan to loan at the discretion of the commission;

(ii) Periodic principal and interest payments will commence when required by the commission but not later than one (1) year after project completion and all loans will be fully amortized when required by the commission but not later than the maximum time allowed by federal law after project completion;

(iii) The recipient of a loan will establish a dedicated source of revenue for repayment of loans;

(b) To buy or refinance the debt obligation of political subdivisions at or below market rates, where the debt obligations were incurred after March 7, 1985, and where the projects were constructed in compliance with applicable federal and state regulations;

(c) To guarantee, or purchase insurance for, obligations of political subdivisions where the action would improve credit market access or reduce interest rates;

(d) To provide loan guarantees for similar revolving funds established by municipalities or intermunicipal agencies;

(e) To earn interest on fund accounts;

(f) To establish nonpoint source pollution control management programs;

(g) To establish estuary conservation and management programs;

(h) For the reasonable costs of administering the revolving fund and conducting activities under this act, subject to the limitations established in Section 603(d)(7) of Title VI of the federal Clean Water Act, as amended, and subject to annual appropriation by the Legislature;

(i) In connection with the issuance, sale and purchase of bonds under Section 31-25-1 et seq., related to the funding of projects, to provide security or a pledge of revenues for the repayment of the bonds; and

(j) To pay the principal and interest on bonds issued pursuant to Section 11 of Chapter 580, Laws of 2007, Section 1 of Chapter 492, Laws of 2008, Section 47 of Chapter 557, Laws of 2009, Section 45 of Chapter 533, Laws of 2010, Section 3 of Chapter 480, Laws of 2011, Section 36 of Chapter 569,

Laws of 2013, Section 9 of Chapter 452, Laws of 2018, Section 1 of Chapter 415, Laws of 2019, Section 16 of Chapter 492, Laws of 2020, and Section 137 of Chapter 480, Laws of 2021, as they become due; however, only interest and investment earnings on money in the fund may be utilized for this purpose.

(8) The hardship grants program shall be used only to provide hardship grants consistent with the federal hardship grants program for rural communities, regulations and guidance issued by the United States Environmental Protection Agency, subsections (3) and (5) of this section and regulations promulgated and guidance issued by the commission under this section.

(9) The commission shall establish by regulation a system of priorities and a priority list of projects eligible for funding with loans from the revolving fund.

(10) The commission may provide a loan from the revolving fund only with respect to a project if that project is on the priority list established by the commission.

(11) The revolving fund shall be credited with all payments of principal and interest derived from the fund uses described in subsection (7) of this section. However, notwithstanding any other provision of law to the contrary, all or any portion of payments of principal and interest derived from the fund uses described in subsection (7) of this section may be designated or pledged for repayment of a loan as provided in Section 31-25-28 in connection with a loan from the Mississippi Development Bank.

(12) The commission may establish and collect fees to defray the reasonable costs of administering the revolving fund if it determines that the administrative costs will exceed the limitations established in Section 603(d)(7) of Title VI of the federal Clean Water Act, as amended. The administration fees may be included in loan amounts to political subdivisions for the purpose of facilitating payment to the commission. The fees may not exceed five percent (5%) of the loan amount.

(13) Except as otherwise provided in this section, the commission may, on a case-by-case basis and to the extent allowed by federal law, renegotiate the payment of principal and interest on loans made under this section to the six (6) most southern counties of the state covered by the Presidential Declaration of Major Disaster for the State of Mississippi (FEMA-1604-DR) dated August 29, 2005, and to political subdivisions located in such counties; however, the interest on the loans shall not be forgiven for a period of more than twenty-four (24) months and the maturity of the loans shall not be extended for a period of more than forty-eight (48) months.

(14) The commission may, on a case-by-case basis and to the extent allowed by federal law, renegotiate the payment of principal and interest on loans made under this section to Hancock County as a result of coverage under the Presidential Declaration of Major Disaster for the State of Mississippi (FEMA-1604-DR) dated August 29, 2005, and to political subdivisions located in Hancock County.

§ 49-17-87. Pledge of moneys for repayment of loan; loan agreement and repayment schedule; audits; applicability of limitations on indebtedness.

(1) A political subdivision which receives a loan from the revolving fund or emergency fund is required to and authorized to pledge for the repayment of such loan (a) any part of the sales tax reimbursement to which it may be entitled under Section 27-65-75, and (b) any part of the homestead exemption annual tax loss reimbursement to which it may be entitled under Section 27-33-77, to meet a repayment schedule set forth in a loan agreement. The loan agreement shall provide for (i) monthly payments, (ii) semiannual payments or (iii) other periodic payments, the annual total of which shall not exceed the annual total for any other year of the loan by more than fifteen percent (15%). The loan agreement shall provide for the repayment of all funds received from the revolving fund within the maximum time allowed by federal law after project completion and repayment of all funds received from the emergency fund within not more than ten (10) years from the date of project completion. The Department of Revenue shall pay to the revolving fund or emergency fund monthly, or as often as is practicable, from the amount, which would otherwise be remitted to a political subdivision from its sales tax reimbursement or homestead exemption annual tax loss reimbursement, the amounts set forth in such loan agreement.

(2) Before any political subdivision shall receive any loan from the revolving fund or the emergency fund, it shall have executed with the Department of Revenue and the commission a loan agreement evidencing that loan. (3) As determined by the commission, any political subdivision desiring to construct a project approved by the department and which receives a loan from the state for that purpose may be required to pledge as security for the repayment of that loan, all or any part of the revenues of any project constructed, improved, repaired, replaced, purchased or refinanced with the proceeds of such loan. Whenever any project is a part of a system or combined system, then all or any portion of the revenues of that system or combined system may be pledged to secure repayment of a loan as determined by the commission.

The loan agreement shall provide for periodic payments, the annual total of which shall not exceed the annual total for any other year of the loan by more than fifteen percent (15%). The repayment schedule shall provide for the repayment of all funds received from the revolving fund within the maximum time allowed by federal law after project completion and repayment of all funds received from the emergency fund within not more than ten (10) years from the date of project completion. Payments under the loan agreement shall be made prior to the payments of principal or interest on any bonds issued by the political subdivision in connection with the project or projects to which loans from the revolving fund or emergency fund are made.

The State Auditor, upon the request of the commission, shall audit the receipts and expenditures of each district whose monthly payments are to be received by the department, and if the State Auditor should find the political subdivision in arrears, the Auditor shall immediately begin withholding from funds due the taxing district in which the political subdivision is located, under Section 27-33-41, an amount equal to the payment due plus accrued interest, late charges and expenses incurred in the audit and issue a warrant for that amount to the revolving fund or emergency fund as directed below.

(4) Loans or any bonds or other evidences of indebtedness which are incurred or issued either pursuant to this chapter or Section 31-25-1 et seq., in relation to this chapter, or pursuant to any other law as evidence of any loan made or indebtedness incurred pursuant to this chapter, shall not be deemed indebtedness within the meaning specified in Section 21-33-303, with regard to cities or incorporated towns, in Section 19-9-5, with regard to counties, and in any other state law establishing a similar indebtedness limitation with regard to political subdivisions other than cities, incorporated towns and counties.

§ 49-17-421. Annual tank regulatory fee; computation of fee.

(1) After receiving the annual report and recommendation of the Underground Storage Tank (UST) Advisory Council, the commission may assess and collect an annual tank regulatory fee in an amount sufficient to administer Sections 49-17-401 through 49-17-435, but not to exceed Two Hundred Dollars (\$200.00) per tank. The fee, as set by the commission, shall be assessed per tank per year and shall be collected from the owner of each underground storage tank available for use in Mississippi on July 1, 1988, or brought into use or available for use after that date, as provided in the Mississippi Underground Storage Tank Act of 1988 (Sections 49-17-401 through 49-17-435). The fee assessed under this section is a debt due by the owner of each tank in use in Mississippi on July 1, 1988, or brought into use after that date.

(2) The commission shall establish the amount of the tank regulatory fee to cover the costs of the underground storage tank program. The fee for each state fiscal year shall be set by order of the commission, which shall include:

(a) A receipt of the report and recommendations of the UST Advisory Council, and

(b) A public notice to allow the public a period of at least thirty (30) days to provide comments regarding the underground storage tank fee report and recommendation, or to request a public hearing in accordance with Section 49-17-29(4)(a).

The department may conduct a public hearing on the tank regulatory fee when a significant level of public interest exists or when warranted by other factors. Notwithstanding the provisions of this subsection (2), the commission may proceed with entry of the order if the UST Advisory Council fails to submit its report in a timely manner.

Unexpended amounts remaining in the special fund at the end of the fiscal year shall not lapse into the General Fund and any interest earned on amounts in the special fund shall be credited to the special fund by the Treasurer. § 49-27-71. Derelict vessel defined; jurisdiction; standing; notice; derelict vessel removal; emergency removal; cost recovery; court process; department authorities.

(1) **Definitions.** As used in the section, unless the context clearly indicates otherwise:

(a) “Derelict” means (i) grounded; (ii) allowed to remain in an unseaworthy or dilapidated condition; or (iii) submerged or in immediate danger of

sinking. A ship submerged for one hundred (100) years or more is not derelict.

(b) "Vessel" means vessels and, for purposes of this section, also includes floatable buildings and structures, whether or not they are used for navigation.

(2) **Jurisdiction.** In the waters of Harrison, Hancock and Jackson Counties, a person must not leave derelict any vessel on the coastal wetlands, marine waters, or on public or privately owned lands without the owner's permission.

(3) **Standing.** Only a party with standing may initiate the derelict vessel procedures in this section. For purpose of this section, the following parties have standing:

(a) The owner of the property where the vessel came to rest or to which the vessel was made fast;

(b) Any harbormaster, police department, municipality or agent of the state that agrees to accept or process a derelict vessel; or

(c) Any professional marine salvager when the salvager is engaged by a person with standing.

(4) **Notice.** Any party with standing may initiate the notice process by filing an application to remove the derelict vessel with the department. Upon receipt of the application, and review, the department may initiate the following notice process:

(a) A department officer will post notice on the vessel in a prominent location so as to be visible to an approaching person, requiring the vessel to be removed within seven (7) days of the notice.

(b) The notice must include a space for the owner of the vessel to respond.

(c) If the owner responds with a signature in the space or written response to the department requesting an extension of time, then the owner will have an additional five (5) days to remove the vessel.

(d) The department must attempt to contact the owner of the vessel and any lien holders of record by other available means. The owner is presumed to be the person to whom the vessel is registered.

(5) **Derelict vessel removal.** (a) After the initial notice period described in subsection (4) has lapsed, the derelict vessel may be removed by the department or the party with standing.

(b) Prior to disposition of the vessel, the department or the party with standing must inquire of the Department of Wildlife, Fisheries and Parks as to the status of the vessel in regard to the Mississippi Boating Law of 1960, Section 59-21-1 et seq. The inquiry must provide the description of the vessel, including the vessel registration number. Upon request of the Department of Wildlife, Fisheries and Parks, satisfactory evidence must be furnished as to dereliction in compliance with this section. The Department of Wildlife, Fisheries and Parks will advise the inquirer of proper registration procedures, where indicated, depending on the method of disposition of the vessel.

(c) On registration, title to the derelict vessel vests with the person or governmental agency that registered it. No liabilities incurred by the vessel or the vessel owner transfer along with the title. Any vessel transferred under this subsection may be disposed of without additional notice to the original owner of the vessel. Any value retrieved from the sale or disposal of the vessel offsets the costs of removal and storage attributed to the original owner.

(d) Any person who acts in good faith and without malicious intent in the processing, storage or movement of any derelict vessel pursuant to this section is immune from civil liability for damage to the vessel.

(6) **Emergency removal.** Any derelict vessel within any designated navigation channel or within one hundred (100) yards of the boundaries of any state, county or municipal port may be declared a hazard to navigation and subject to immediate removal and disposal by the department. Any derelict vessel that is leaking any hazardous substances, chemicals or fuels may be declared an environmental hazard and subject to immediate removal and disposal by the department. The owners of a vessel removed in accordance with this subsection are liable for the costs associated with the salvage and disposal of the vessel and any damages to the flora and fauna within the affected area. The department is not liable for damages resulting from relocation or removal unless the damage results from gross negligence or willful misconduct.

(7) **Cost recovery.** (a) Any party with standing may seek full cost recovery from the owner of the derelict vessel for any expense incurred as a result of, or incidental to, removing the vessel. The owner of the vessel is liable for the costs of removal, storage and restoration of affected lands. If ownership of the vessel transfers under subsection (5)(c), then the original owner is liable for double the costs of removal, storage, restoration of affected lands, attorneys' fees, and all costs of court.

(b) The owner of the vessel is also liable for a fine of Five Hundred Dollars (\$500.00) per day. However, no fine will be charged if the vessel is reclaimed by the owner and all expenses paid before the title transfers under this section.

(8) **Court process.** (a) The chancery court of the county in which the vessel is located has jurisdiction over all matters concerning derelict vessels under this section, including injunctions and demands for damages.

(b) The chancery court may, in its discretion, order damages up to Five Hundred Dollars (\$500.00) per day for every day the vessel was left abandoned or derelict, beginning on the day of the first posting of notice. If the vessel was removed prior to the title transferring under subsection (5), then no such damages will be assessed. The vessel owner is liable for reasonable attorneys' fees and all costs of court.

(c) If a party with standing desires to require the owner to remove the vessel, then he may apply to the chancery court for a writ of mandatory injunction ordering the owner to remove the vessel. The chancery court must allow a reasonable time for removal and restoration of the affected lands. The chancery court may order further damages not to exceed Five Hundred

Dollars (\$500.00) per day for each day that the violation exists beyond the date set by the court in an injunction for the removal of the vessel and restoration of the affected lands.
